UNIDAD 2

STYLE AND FASHION

UNIT II. STYLE AND FASHION

INTRODUCTION TO THE UNIT

In Unit 2, you will learn useful language to talk about clothing, style, and fashion in both past and present contexts. You will practice asking about and describing past fashions, and learn how styles have changed over time. You will also learn how to ask where something is in a store and how to request specific products when shopping. In addition, you will practice expressing your opinions about style and talking about current fashion trends. These skills will help you communicate with more confidence in everyday situations, especially when shopping or discussing personal preferences. By the end of this unit, you will be able to describe styles, give opinions, and interact more naturally in fashion-related conversations.

UNIT OBJECTIVE

To develop students' communicative, linguistic, and social skills in English so they can interact at a basic level when talking about clothing, style, and fashion. By the end of this unit, students will be able to describe past fashions, ask for specific products in a store, locate items while shopping, and express simple opinions about personal style and current fashion trends. These abilities will help students communicate more confidently in everyday conversations and practical situations related to shopping and personal preferences.
