WORK, BUSINESS AND DECISIONS

UNIT 2

Introduction to Unit 2

UNIT 2: WORK, BUSINESS AND DECISIONS

WELCOME!

This unit introduces you to structures that are useful to talk about the usual everyday services, as well as getting things done in general.

The following sections also have grammatical and lexical aims that have to do with reporting what people said in a recent or un-recent past.

You will also interact with expressions related to reflections about the facts in a supposed way; others related to decisions, and hopes and wishes.

As in the previous unit it will be quite important to keep learning verbs. For this reason, it is recommended to use extra learning sources or materials from books, websites, or others.

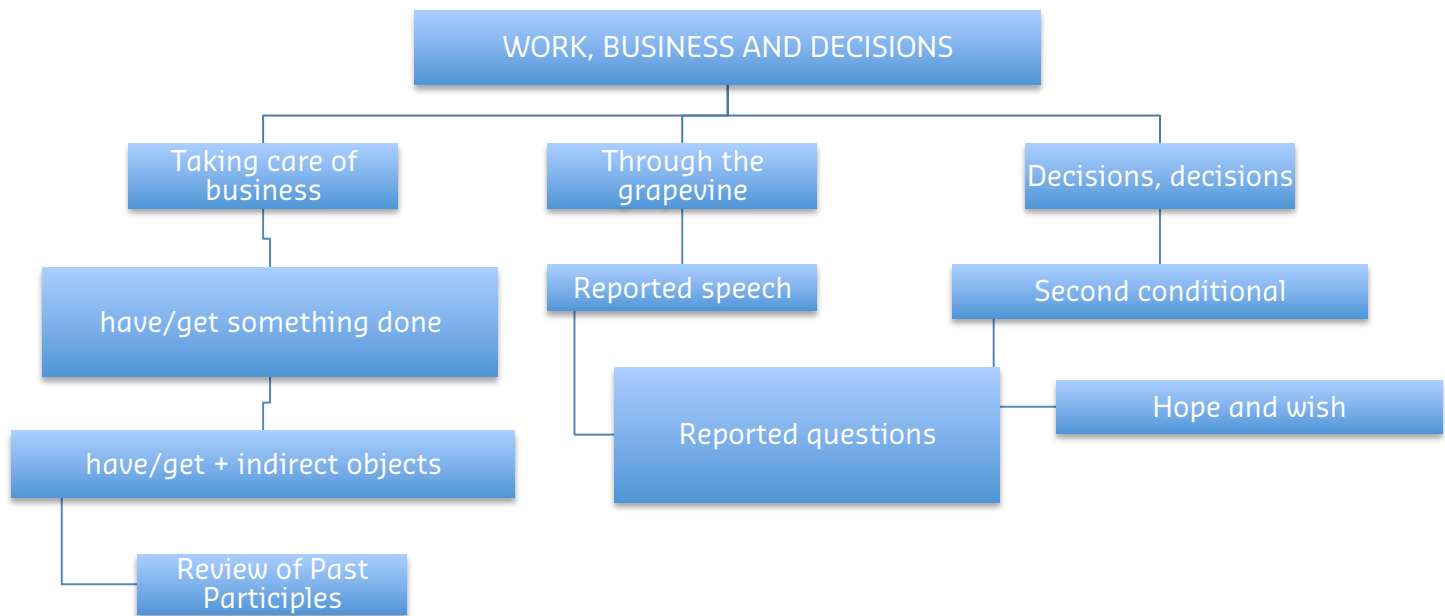

UNIT OBJECTIVES

By the end of the unit the learner is expected to be able to use adequately lexis related to services (*install, clean out*, etc., for example), oral communication (*say, tell, ask*, etc.), advices, among others.

The learner is also expected to use this lexis in grammatical objectives such as causatives (*have/get* things done), reported speech and reported questions, second conditional, and *hope* and *wish* expressions.
