UNIVERSIDAD AUTÓNOMA DE COAHUILA

LIFE CHANGES AND EXPERIENCES

UNIT 1

UNIT I: LIFE CHANGES AND EXPERIENCES

INTRODUCTION

WELCOME!

The language strategies this unit presents aim to make your life easier when you need to express ideas related to life experiences and memories, which are quite frequent in many everyday situations. However, not only these functions of the unit will help your daily conversation, but also others that could be useful when asking information questions politely at certain places, as well as describing problems with products you buy, among others.

To achieve the main goals of the unit it will be quite important to keep enlarging your baggage of verbs by using (if possible) extra sources to study.

Remember that it is always important to practice your English beyond the course activities.
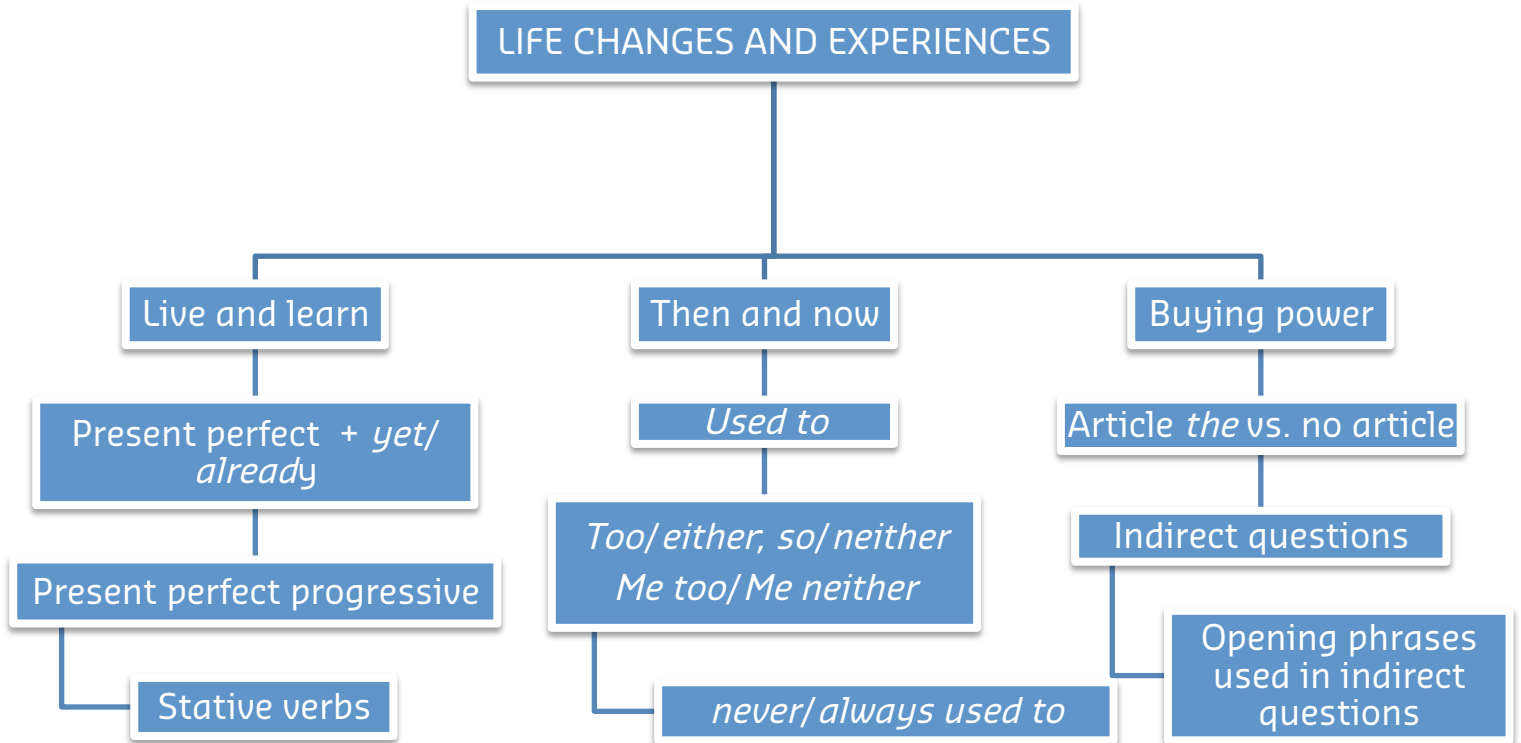

Try it even every little time you have the chance!

UNIT OBJECTIVE

By the end of the unit the learner is expected to be able to handle lexis related to learning processes in different aspects of life, structure sentences related to having experience on doing things, as well as the continuity of these by using Present Perfect. He/she will be able to notice how it differs from the Past Tense learned in the previous course; therefore, he/she is also expected to internalize and use verbs in Past Participle tense.

UNIT 1
